OBJECTIVE

A motivated and adaptable IT student with a strong work ethic and a drive to build a career in IT specifically Information security. With my attention to detail and ability to quickly master new systems, I am keen to support key functions like report generation, project tracking, and audit coordination. My goal is to contribute my foundational technical knowledge and collaborative approach to assist a management team, ensuring smooth project rollouts and clear communication of risks and deliverables. I am eager to begin my professional journey in a role where I can apply my academic learning to real-world IT processes and grow into a valuable team member.

SKILLS & ABILITIES

Technical Proficiency: Programming languages I am proficient in: Python, Java, C#, C++, C, JavaScript, HTML/CSS, SQL

I am excellent with OOP, Database Management, web development and Project management., Cross-Functional Collaboration & Conflict Resolution, Ethical IT Practices & Professional Responsibility.

Physically capable and resilient, Comfortable working in cold, fast-paced environment, Strong work ethic and reliability, Good with hands and attentive to detail, Positive team player and clear communicator
Project Management experienced with various software and techniques Team Leadership & Cross-Functional Collaboration, Conflict Resolution & Ethical Decision-Making, Professional Reporting, Presentations & Client Relations

EXPERIENCE

March 2026- June 2026

Title: Student Assistant
Institution: North - West University
Tasks: Assistance to a Professor for tasks such as marking and invigilation

LEADERSHIP

Technical Manager for Student Cultural Leadership Structure (DIVACO)

November 2024 – October 2025

Overall interpersonal and intrapersonal management skills where put to the test. I have learned to handle my time management and prevail through stressful environments.

Directed full-scale productions by leading teams and coordinating all end-to-end logistics.

Drove technical execution through detailed show scripting, audio engineering, and digital promotions. Orchestrated vision with management to delegate tasks and synchronize workflows.

Enhanced audience engagement by developing custom digital tools and streamlined feedback systems. Ensured seamless outcomes by aligning team roles, communication, and technical cues for a cohesive product.
